Partner

“

Osaka Gas is a global leader in energy transition and developing clean energy solutions around the world. Its partnership with Oriden will help accelerate climate change tech progress across various U.S. markets.”

Osaka Gas, one of Japan's largest energy companies, and Oriden, a US-based renewable project developer, entered into an agreement to jointly develop a portfolio of more than 700 MWdc of utility-scale solar and storage products in the U.S.
